

I strongly believe the privacy of households should be of the utmost importance . . . the NJ Do Not Call List should NOT be made less stringent. Let's remember, America is a democracy and when 2.8 million households sign up to NOT BE DISTURBED BY UNWELCOMED SOLICITORS WHOSE ONLY CONCERN IS MAKING MONEY . . NOT THE PEACE AND SANCTITY OF FAMILY that should be completely respected. Please do not let this telemarketing phenomenon continue to spiral OUT OF CONTROL. I thank you as well as my children. Our time together means a lot to us. Thank you for your consideration.
